

FOR GAS & DIESEL **FUEL MAX+ TABLETS** FUEL CATALYST TECHNOLOGY

Fuel Max Tablets breaks apart hard to burn fuel particulates and allows better atomization. Better atomization means a more efficient burn, better combustion, and more fuel saved.

DIRECTIONS:

Add 1-Fuel Tablet for every 15 gallons (60 Liters) of gasoline or diesel fuel.

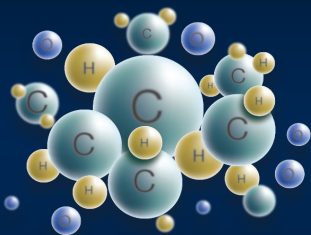

Place tablet in gas nozzle, then insert past fuel trap.

For best results, use at every fill-up.

BEFORE

Fuels chemical energy is stored in a Hydrocarbon.

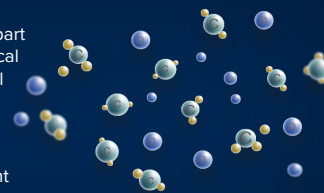

In this state Hydrocarbons do not burn completely resulting in carbon, soot, and harmful emissions.

AFTER

Fuel Maximizer is a catalyst that breaks apart large particulates, accelerating the chemical reaction of fuel thus liberating its chemical energy.

Makes Oxygen available to burn more completely thus producing a more efficient burn.

BOTTOM LINE BENEFITS:

- Improves engine performance
- Improvement in fuel economy
- Virtually eliminates opacity
- Conditions fuel during storage
- Reduces ash formation
- Adds lubricity to diesel fuels
- Prevents carbon buildup
- Improves engine start-ups
- Increases BTU's
- Cleans fuel system and injectors
- No mixing - blends instantly
- Addresses water contamination

DOES NOT AFFECT WARRANTY - 100% SAFE TO USE
