

FUEL MAX+ TABLETS

FUEL CATALYST TECHNOLOGY

Fuel Max Tablets help break apart hard to burn fuel particles so the fuel burns more efficiently which results in maximum fuel economy and reduces emissions.

It also reduces SOOT! Soot mixes with your oil and acts as a grinding compound causing more wear. The Fuel Maximizer Tablets creates a more complete burn reducing carbon and soot which extends the life of your motor oil and motor.

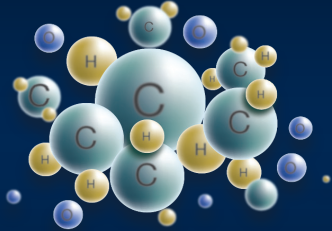

FOR DIESEL & GASOLINE ENGINES

BEFORE

Fuels chemical energy is stored in a Hydrocarbon.

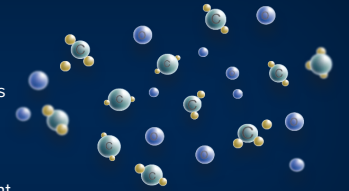

In this state Hydrocarbons do not burn completely resulting in carbon, soot, and harmful emissions.

AFTER

Fuel Maximizer is a catalyst that breaks apart large particulates, accelerating the chemical reaction of fuel thus liberating its chemical energy.

Makes Oxygen available to burn more completely thus producing a more efficient burn.

BOTTOM LINE BENEFITS:

- Boosts horsepower & performance
- Helps increase fuel economy
- Improves fuel stability
- Dramatically reduces black smoke
- Reduces emissions
- Conditions fuel during storage
- Reduces ash formation
- Safely cleans carbon deposits
- Improves engine start-ups
- Cleans fuel system and injectors

**EPA REGISTERED
100% SAFE TO USE**

DOES NOT AFFECT ENGINE WARRANTY
